

Stark 304-Grade Toilet Paper Holder with Shelf – Mirror Steel

SKU 12-1018-01-MR · Finish: Mirror Steel

Care schedule

When	What to do
After cleaning the bathroom	Wipe off any splashes of cleaner from the holder, then wipe it dry.
Weekly	Clean with mild soap and water, using a soft cloth or sponge. Wipe dry after cleaning to avoid water spots and mineral buildup.
Monthly	Check the screws and the roll arm. If the roll arm feels loose, tighten it with the Allen key that came in the box.

Mirror Steel finish

Stark is mirror-polished 304-Grade steel – the shine is polished into the steel itself, with no plating.

- Use only a soft cloth or sponge with mild soap and water.
- Wipe dry after every clean to keep the mirror finish shiny.
- Do not scrub; rubbing hard with anything rough can leave scratches.

Hard water

Hard water can leave white spots as it dries. Wipe the holder dry after cleaning and after splashes. Use mild soap and water only – no acid or descaler.

Do not use

- Bleach, ammonia, chlorine or alcohol
- Industrial solvents or harsh chemicals
- Acid, descaler or tile acid wash (cover or keep the holder away when acid-washing tiles)
- Scouring powder, steel wool, wire brushes or scrubbing pads

Troubleshooting

Problem	Likely cause	What to do
White water spots	Water left to dry on the steel	Clean with mild soap and water, then wipe dry.
Dull patches or marks	Cleaner residue left on the surface	Clean with mild soap and water using a soft cloth, rinse with clean water, then wipe dry.
Roll arm feels loose	Roll arm has loosened with use	Tighten it with the Allen key that came in the box.
